## Pulsed Electromagnetic Field (PEMF) Therapy

---

PEMF therapy works to help heal the ailments of the body, from broken bones, muscle aches, insomnia and so much more. It even lessens the effects of debilitating diseases. The technology is continuously advancing to help people live meaningful lives, working from the cellular level up. Overall, PEMF has been found to be an effective adjunctive enhancement to almost any condition, therapy, and lifestyle. PEMF super charges your health like nothing else!

## Benefits of PEMF

---

PEMF reduces pain, makes soft tissue more flexible, improves sleep, allows the body to heal faster, increases blood flow, and enhances blood and tissue oxygenation. It improves clotting factors, the uptake of nutrients, regenerates your cells, helps improve nerve function, reduces the effects of stress on the body, reduces blood pressure and improves cholesterol. Additionally, PEMF helps the body to detoxify, promotes cellular detoxification, enhances the immune system stimulating RNA and DNA, accelerates the repair of bone and reduces muscle tension. All this and more...8 minutes at a time.

## What is Pulsed Electromagnetic Field (PEMF) Therapy?

PEMF has been studied and used on the body for over 60 years in places such as Russia, Germany, Austria and Japan. It shows significant results and favorable effects without side effects. There have been over 10,000 research studies and over 2,000 scientific studies on PEMF, including gold standard double-blind placebo controls. NASA has performed numerous studies on the benefits
